ACCUMEDTM II

wrist positioning splint

Minimize Movement
Maximize Support

ACCUMED™ II

wrist positioning splint

Stable platform for optimal wrist position

Designed to minimize hand and wrist movement, the Accumed II wrist positioning splint provides a consistent and precise wrist angle to enhance radial access.

ACCUMED™ LP

wrist positioning splint

Low-profile option

The Accumed LP wrist positioning splint offers simple, low-profile support for greater wrist extension. The longer hand strap allows the patient's thumb to be secured throughout the procedure.
