Final Angiogram
(Post IVL & 23Fr TEVAR)

IVL GENERATOR AND CONNECTOR CABLE SPECS

Power	110-240 VAC; 50-60Hz; Single Phase, 15A service	 <p>IVL Generator CATALOG NUMBER: IVLGCC</p>
Size	11" (28.0 cm) high x 6" (15.2 cm) wide x 11.5" (29.2 cm) deep	
Weight	15 pounds (6.8 kg)	
Output	Proprietary pulse delivery system. Output voltage 3000 volts peak, pulse frequency 1Hz	
Mobility	Product is designed to be mounted to an IV pole	
Length	5 ft (1.53m)	 <p>IVL Connector Cable CATALOG NUMBER: IVLCC</p>
Compatibility	Proprietary male key distally designed to connect only to catheter.	
Operation	Lithotripsy pulsing is activated by pushing a button on the Connector Cable.	
Use	Re-usable	

M5 CATHETER SPECS
